FOR IMMEDIATE RELEASE

Veteran White House Press Corps Photojournalist Christy Bowe Writes Book on Covering Five U.S. Presidents

A look at the Trump, Biden, Obama, Bush and Clinton Presidencies

WASHINGTON, DC – February 3, 2025 -- In “*History in the Making: A Focus on Five U.S. Presidents,*” photojournalist Christy Bowe pulls back the curtain to reveal the eloquently captured presidencies of Joseph R. Biden, Donald J. Trump, Barack Obama, George W. Bush and Bill Clinton.

Bowe presents a rare and unique perspective conveying what it’s taken to make it in her profession while also managing to reveal the personalities of the country’s commanders-in-chiefs in an impartial manner.

History in the Making depicts the shifting human experience of each president, all of whom have responded quite differently to national challenges, triumphs and disasters. When photographing at the White House there is no choice but to react quickly and respond spontaneously. After all, it is often the candid shots — of sudden, sometimes subtle shifts in attitude, personality and imperfect eccentricities — that speak the greatest truth. (Brown Books Publishing Group; November 5, 2024)

According to a review in the Midwest Book Review, the coffee-table style book “is an elegant, informative, and inherently fascinating combination of captioned photography and descriptive ‘insider’ commentary” and is “uniquely recommended for personal, professional, community, and college/university library Presidential History, Political History, and Contemporary Photography collections.” https://www.midwestbookreview.com/lbw/dec_24.htm#americanhistory

Praise for the Book

“It is the reporters and photographers who let the public know what it is like to be present at both the small and large moments. They chronicle the constant activity that occurs inside 1600 Pennsylvania Avenue, and it is through their work that we know what is taking place in the three branches of government. *History in the Making* offers that intimate glimpse into the world of the White House. Within these pages she shares what she has learned while photographing our

presidents and offers a look behind the scenes at the White House, capturing unforgettable, up-close moments in history with heart and humanity ... [Christy] is a visionary through her camera, allowing us to feel what we couldn't even comprehend in a thousand words.” —**Connie Morella, former congresswoman for Maryland and U.S. Ambassador to the Organization for Economic Cooperation and Development in Paris** (*she wrote the book's foreword*)

“Through her beautiful photographs and sharply rendered anecdotes in *History in the Making* ... Christy provides a close-up of the most defining and intimate moments from the past five presidencies. A marvelous achievement.” —**Rep. Jamie Raskin (D-Maryland)**

“An enthralling ‘peek behind the curtain’ into what goes on in the White House — a peek only accessible to someone with a camera, press credentials and the talent to capture history in the making.” —**Rep. Andy Harris (R-Maryland)**
